

### Enjoy working outdoors? Join Our Growing Team at Mantair!

Are you ready for an exciting role in the off mains wastewater treatment industry? Due to continued growth and development, we are looking for a Field Drainage Engineer to join our team.

#### About Us

Mantair Ltd is a market leader in the off mains drainage industry that manufactures, installs and maintains a range of wastewater treatment plants and drainage systems for domestic and commercial properties. We are committed to providing exceptional service to our valued customers, who include RSPB and National Trust.

#### Location

This is a field-based role, working predominantly across the East Anglian Region. Our workshop is based in Clacton-on-sea, where you will be required to report before travelling to site, or travel directly to site. You will also be required to work directly from the workshop. There will be the requirement for overnight stays outside our immediate region, with full expenses, travel and accommodation provided.

#### Field Drainage Engineer Role

This is an interesting and varied role that offers the opportunity for you to develop a range of skills, experience and knowledge across Mantair Ltd. As a Field Drainage Engineer, you'll be an integral part of a team participating in on-site activities to prepare and install wastewater treatment plants. You will also cover some duties within our workshop.

#### What you will be doing

##### Onsite Duties:

- Pack and transport equipment and tools to the site for prompt commencement of works.
- Perform site preparation work and work together as a team to plan out the install.
- Carry out excavation and installations in line with documented specification agreed with the customer by Mantair's operation team.
- Operate machinery, tools and equipment in accordance with training.
- Install and test treatment systems, ensuring adherence to Mantair's quality standards.
- Maintain high standards of Health and Safety at all times.
- Proactively report any queries or issues to the Operations Manager.
- Flexibility to undertake additional duties as required by Senior Management.

##### Workshop Duties:

- 
- Receive and unpack deliveries, ensuring all items are accounted for and stored correctly.
  - Maintain stock levels and perform regular stock taking to ensure accuracy.
  - Ensure an organised and clean workshop is maintained.
  - Manufacture small components using various hand tools.

### What we are looking for

We're looking for hardworking individuals who excel in a team environment, paying close attention to detail and delivering top-notch work efficiently. You should be able to follow instructions, communicate effectively with customers, and collaborate with suppliers. The role will involve manual and skilled ground work.

### Essential:

- Full UK Driving License
- Ability to operate basic hand tools
- Experience in ground works or skilled labour

### Desirable, but not required:

- Water industry/environmental experience
- Good knowledge of Health and Safety associated with the construction industry
- Excavator 360/180 certification
- Forward tipping dumper certification

### What we offer

- Employee Assistance Programme
- Eligibility for annual bonus scheme
- Corporate Flu Vaccination Programme
- Use of Company Van
- Company Mobile
- Pension contribution

### How to Apply

If you are a motivated individual that enjoys working outdoors, please send your resume and a cover letter highlighting your relevant skills and experience to [recruitment@mantair.com](mailto:recruitment@mantair.com).

We are an equal opportunities employer and ensure that our recruitment process is fair, transparent and unbiased. We encourage applications from all suitably qualified persons regardless of their gender, ethnicity, religion, ability and background. This helps us to provide a diverse and inclusive working environment.

## Field Drainage Engineer (Off Mains)

Full time, Permanent  
£25,000 - £30,000 per annum

---

We are committed to providing reasonable accommodations for candidates with disabilities throughout the recruitment process. If you require accommodations, please let us know, and we will work with you to meet your needs.
